## A TIMELESS AND ELEGANT MODEL

As a nod to its beginnings in the 1950's, THG Paris has returned to traditional bathroom fittings designs to create a timeless and elegant model.

All metal or combined with porcelain, the 1900 model can either magnify a retro interior or bring an offbeat touch to a contemporary decor.

Available for basins, showers and baths, with a coordinated accessories line, this series is available in a wide choice of finishes, including chrome, gold, soft gold, nickel, rhodium silver and rose gold.

1900 is available in several versions: cross handles (G25), with levers (G28).

## TRANSITIONAL STYLE

This new term which originates from North America defines a style midway between the sophisticated aspect of the contemporary style and the elegance of the traditional style.

THG Paris transitional collections combine the comfort and warmth of the traditional style with the pure lines and understated shapes of the contemporary style.
