FLORAL MOTIF & MINERAL MATERIAL

More than just taps, this collection borrows an artistic subject and know-how. Combining a floral motif and a mineral material, the Flore collection celebrates the beauty of flowers through unique crystal inlays sculpted by the Daum company. A subject dear to jewellery and art, these flowers transcend the tap fittings and appear as poetic sculptures.

Available for basins, showers and baths, with a coordinated accessories line, this series is available in a wide choice of finishes, including chrome, gold, soft gold, nickel, rhodium silver and rose gold.

PRESTIGE COLLECTIONS

The Prestige collections from THG Paris are part of the company's DNA. Adorned by semi-precious stones, crystal or porcelain, prestige bathroom fittings often have a classic shape but reveal a rare elegance. The gold or pale gold finishes go perfectly with the eminent designs.

DAUM

Daum, the legendary glassmaker master, has kept alive for more than a century a love relationship with the greatest artists of his time, from Majorelle to Dali, Georges Braque and Arman. Few brands will have worked with as many artists: within 130 years, more than 350 exceptional signatures have constituted a heritage beyond compare, a unique collection.

Daum rediscovered the "pâte de verre" technique in 1968 using crystal ensuring the perfect regularity of its contours, which would be impossible to obtain using traditional crystal or glassblowing methods.
