A PERFECT MATCH FOR A SENSORY EXPERIENCE

Between orange and burnt sienna, the colour of the crystal breathes dynamism into the motif of this tree with many virtues. This aesthetics and feel have been designed with precision and intelligence for a sensory experience. The Ginkgo collection reveals once again Daum's gift for sculpted and coloured crystal and adds a new series to the successful collaboration between Daum and THG Paris. Available for basins, showers and baths, with a coordinated accessories line, this series is available in a wide choice of finishes, including chrome, gold, soft gold, nickel, rhodium silver and rose gold.

PRESTIGE COLLECTIONS

The Prestige collections from THG Paris are part of the company's DNA. Adorned by semi-precious stones, crystal or porcelain, prestige bathroom fittings often have a classic shape but reveal a rare elegance.

DAUM

Daum, the legendary glassmaker master, has kept alive for more than a century a love relationship with the greatest artists of his time, from Majorelle to Dali, Georges Braque and Arman. Few brands will have worked with as many artists: within 130 years, more than 350 exceptional signatures have constituted a heritage beyond compare, a unique collection.

Daum rediscovered the "pâte de verre" technique in 1968 using crystal ensuring the perfect regularity of its contours, which would be impossible to obtain using traditional crystal or glassblowing methods.
