PALLADIUM PATCHWORK GILDING

THERE ARE TWO DISTINCTIVE GILDING TECHNIQUES: CHECKERBOARD AND PATCHWORK. TO ACHIEVE THE CHECKERBOARD EFFECT, THE GOLD LEAVES ARE MANUALLY APPLIED ONE BY ONE IN A CHECKED PATTERN, SO AS TO OBTAIN PERFECTLY STRAIGHT LINES. ATELIERS GOHARD'S SIGNATURE PATCHWORK GILDING, FUNDAMENTALLY CONTEMPORARY, IS ACHIEVED BY CUTTING EACH GOLD FOIL INTO SEVERAL PIECES AND RANDOMLY APPLYING THEM SO AS TO CREATE A PATCHWORK EFFECT. THE GOLD LEAVES ARE THEN VARNISHED FOR PROTECTION PURPOSES. THE SKILLFUL APPLICATION OF THE GOLD FOIL IS TRADITIONAL CRAFTSMANSHIP TURNED INTO METICULOUS ART.
