RAW MATERIALS ENHANCED BY FRENCH CODES OF LUXURY

The Montaigne collection emerged from the idea of transformation: transforming two raw materials, brass and a piece of marble, into a contemporary object of decoration and design; magnifying nature, finding beauty in an everyday object and infusing it with the codes of luxury "à la française" cherished by Stéphanie Coutas and THG Paris.

Available for basins, showers and baths, with coordinated accessories line, the Montaigne collection sheds light on a French marble enhanced by French artisans.

CONTEMPORARY COLLECTIONS

Straight, graphic or sometimes curved lines, THG Paris contemporary bathroom fittings are pure and understated but always elegant.

STÉPHANIE COUTAS

The interior designer and decorator Stéphanie Coutas' prestigious and luxurious achievements distinguish themselves by the nobility of the materials used, the prestige of bespoke as well as the exceptional quality and originality of the finishing touches. A neoclassical and contemporary style which revisits all the eras and trends of decorative art with audacity.

In rare and precious settings, Stéphanie Coutas expresses her talent through three cardinal values: elegance, "joie de vivre" and comfort.
