

# NIHAL COLLECTION

Ref. U2L Nihal blue porcelain - U2M Nihal metal - U2N Nihal white porcelain  
Ref. U2P Nihal black porcelain - U2R Nihal green porcelain

## A STAR IS BORN

Design by the French architect, Xavier Cartron, the integral part of 'Nihal's' DNA is expressing this dialogue between cultures and the mixing of tones and materials which are associated with each.

Named after a star in the Lepus constellation symbolising spring water, artisanal know-how and technological advances lie at the heart of THG Paris's new 'Nihal' collection. Manufactured in collaboration with Maison Haviland, 'Nihal' was produced after eighteen months of research and development.

## PRESTIGE COLLECTIONS

The Prestige collections from THG Paris are part of the company's DNA. Adorned by semi-precious stones, crystal or porcelain, prestige bathroom fittings often have a classic shape but reveal a rare elegance. The gold or pale gold finishes go perfectly with the eminent designs.

## XAVIER CARTRON

With a spontaneous and enterprising temper, Xavier Cartron early reveals a particular taste and elation for Art and for interior design.

He learns alongside Companions of France and reputed architects, and keeps values that will stay a leitmotiv in his professional life : Passion of work, respect for excellence, love of know-how. Soon, talent and eloquence pushed him to travel the world, and to assert himself professionally in the tradition of interior design called "à la française".
