A DECOR WITH SUBTLE, MODERN AND TIMELESS ENGRAVING

Haviland and THG Paris have decided to collaborate in order to offer a collection that transposes the Haviland Infini design throughout the bathroom.

Infini, Haviland's most popular collection, reveals a subtle, modern and timeless engraving inspired by the sun's rays. Created in counter relief by hand, the Infini engraving is faithful to the DNA of the French porcelain factory and reveals all the know-how of the master of porcelain maker. Available in a variety of colours, the Infini decor offers both a matt and shiny finish thanks to its unique enamelling technique and delicate painting, executed entirely by hand in Limoges.

PRESTIGE COLLECTIONS

The Prestige collections from THG Paris are part of the company's DNA. Adorned by semi-precious stones, crystal or porcelain, prestige bathroom fittings often have a classic shape but reveal a rare elegance.

HAVILAND

Since 1842, when David Haviland left the United States to settle in Limoges and opened his factory, the Haviland name has never ceased to shine in the firmament of porcelain finery.

Installed in ultra-modern facilities since the beginning of the nineties, the factory has retained its ancestral expertise.

The result can be seen in the prestigious reproductions of classical designs as well as in new, refined and resolutely contemporary creations.
