

BRUSHED STAINLESS STEEL

Brushed stainless steel, commonly used in public places thanks to its resistance to corrosion, is currently evolving and beginning to emerge as a decorative material. Its clear, deep grey colour is rather masculine. Brushed stainless steel adds a strong touch to interiors, while its neutral colour blends in with modern surroundings.

Reference: A09

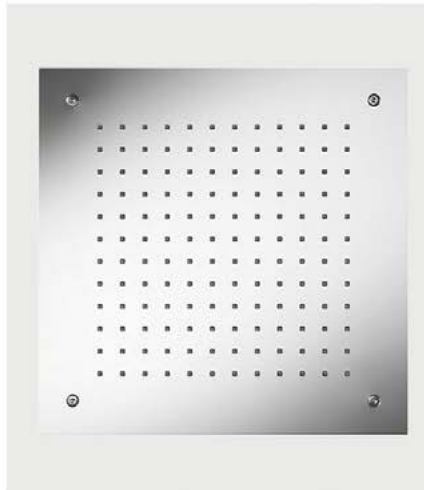

CHARACTERISTICS

THG Paris has developed a range of products manufactured from steel, such as the JAMES collection, as well as a number of hydrotherapy products. A regular suitable care routine will ensure the steel preserves its original appearance.

ADVICE

Ease of cleaning: Easy
Corrosion resistance: Excellent
Scratch resistance: Excellent
Resistance to cleaning products: Excellent

INSPIRATIONS

All the THG Paris finishes are created in our workshops.
Our complete mastery of products and finishes gives you complete security and the best guarantee
