GAME OF WATER AND LIGHT FOR THIS FACETED COLLECTION

To create this collection, Patrick Gilles found his inspiration in the Aurore lamp revisited for the Baccarat crystal manufacture. Its faceted crystal sides recall the perfect transparency of water.

The tap "Les Ondes" originates from this very creative process. It is made of a 10-faceted base on top of which sits a trident-shaped brace reminiscent of the attribute of Neptune, god of seas and oceans. This collection, both classical and modern, is a perfect fit for a timeless decoration suffused with French elegance.

TRANSITIONAL COLLECTIONS

Transitional bathroom fittings combine the comfort and warmth of the traditional style with the pure lines and understated shapes of the contemporary style.

The corresponding brass, old silver and nickel finishes are often associated with this style.

GILLES & BOISSIER

Complimentary in every way, Patrick Gilles and Dorothée Boissier master the art of discord. They maintain a constructive opposition which balances each project. Whilst he is fond of rigorous lines and the most beautiful essences of wood, influenced by his teaching under Christian Liaigre, she harmonises the whole concept with smooth accents and an emotional touch learnt from her years spent alongside Philippe Starck.

Hence it is through this essential contradiction that this talented duo sign creative projects, which are internationally recognized for their elegance and maturity.
