A CUSTOMISABLE TAP COLLECTION TO REFLECT ITS OWNER'S IMAGE

If the tap is the gem of the bathroom, Arik Levy does not want each gem to solely reflect his image, but rather to be customisable by its owner.

The creative idea of appropriation is part of the artist's identity - "creation is an uncontrolled muscle". Like every other piece by Arik Levy, the System collection carries an inspiring message, which encourages each individual to choose their own tap collection by playing with materials and finishes.

For the first time, THG Paris is collaborating with an artist whose message transcends design.

CONTEMPORARY COLLECTIONS

Straight, graphic or sometimes curved lines, THG Paris contemporary bathroom fittings are pure and understated but always elegant.

ARIK LEVY

Artist, technician, photographer, designer, video artist, Levy's skills are multi disciplinary and his work can be seen in prestigious galleries and museums worldwide. Best known publicly for his sculptures - such as his signature Rock pieces -, his installations, limited editions and design, Levy nevertheless feels "the world is about people, not objects".

Hailing originally from Israel and moving to Europe at the end of the 80's, Arik Levy currently works in his studio in Paris.
