THG PARIS & YOU

- We adapt our products to your project: colours, textures, dimensions—adjusting time and price accordingly
- Our service offer integrates your operational constraints, finds solutions and helps you carry them out
- We develop specific technical parts
- We guarantee high quality finishes and use noble materials
- We offer market prices
- We ensure short lead times thanks to French manufacturing
- We use certified components and assembly complying with existing international standards
- We develop specific products with the support of our in-house design studio
- We are a dedicated expert partner
- We have subsidiaries across the world providing tailored technical assistance
- We provide tools and support: technical data sheets, images, samples, DWG, 3D, etc.

GLOBAL PRESENCE

Interconnection between the subsidiaries,
the technical and commercial services

Commercial follow-up

Our teams are here to help you create a technical and design file to validate your product requirements.

Product choice

An international team of experts helps you determine the specific needs of your projects.

Order

Our project department defines and validates the terms of your order, the appropriate packing list and the delivery dates.

THG[®]
P A R I S

Guarantee

Over 60 years of technical expertise at the service of high quality and in line with international standards. 100% integrated French manufacturing.

Installation Technical support

Our products comply with the highest implementing standards thanks to our integrated design department's R&D. Technical data sheets, flow curves, installation guidelines: our team of experts is here to help you on your work sites.

Maintenance Operation

Our global presence allows us to respond swiftly with technical assistance, wherever your establishment is located. We elaborate care and maintenance specifications.
