## ALLIANCE OF THE CRYSTAL AND THE PLANT WORLD

Classic and modern, the refinement of crystal combined with the solidity of bamboo. It is this paradox, embellished with sculpted leaves and different colour ranges, which makes Bambou a unique collection where the details go perfectly with the cross braces of the bathroom fittings.

Available for basins, showers and baths, with a coordinated accessories line, this series is available in a wide choice of finishes, including chrome, gold, soft gold, nickel, rhodium silver and rose gold.

## CONTEMPORARY COLLECTIONS

Straight, graphic or sometimes curved lines, THG Paris contemporary bathroom fittings are pure and understated. The chrome and pink gold finishes are ideally suited to this style.

## LALIQUE

For more than 100 years, Lalique's manufacture located in Alsace, area renowned for its glassmaking, has perpetuated a traditional know-how.

Lalique style is easily recognizable through the manual modelling of the shapes and patterns. The different types of finishing create a characteristic contrast of clear and matt crystal, an identity built by softness, femininity and nature with strong Art Nouveau and Art Déco inspirations.

Lalique metamorphoses raw material into unique artworks.
