SIMPLICITY OF SHAPES AND STRENGTH OF METAL

The series, created under a minimalist influence and comprised of very thin and slender spouts, offers a perfect demonstration of modern luxury.

Nano has a modern and clean style that can be a part of all kinds of bathroom atmospheres. This tap is totally open to the spirit of today and displays a strong identity thanks to the simplicity of its shapes and the strength of its metal.

The material and design of Nano brings together the current styles and trends of interior design that helps THG Paris to cultivate a more up-to-date image.

Available for basins, showers and baths, with a coordinated accessories line, this series is available in a wide choice of finishes, including chrome, gold, soft gold, nickel, rhodium silver and rose gold.

CONTEMPORARY STYLE

From its extensive choice of designs, THG Paris proposes collections in a contemporary style.

Straight, graphic or sometimes curved lines, THG Paris contemporary bathroom fittings are pure and understated, but always elegant.

The chrome and pink gold finishes are ideally suited to this style.
