## TRANSPARENT DROPLETS FLOWING FROM THE SATIN CRYSTAL

The new line of bathroom fittings named Perle was born from the alliance of three famous names in French decoration: Lalique, a glass master, THG Paris, a stylish taps manufacturer, both managed by the renowned interior architect Pierre-Yves Rochon.

Baptised Perle, a necklace of pearls engraved on the refined metal of the spout and the cross handles, associated with transparent droplets flowing from the satin crystal, this line will bring prestige, elegance and modernity to your bathroom.

### CONTEMPORARY COLLECTIONS

Straight, graphic or sometimes curved lines, THG Paris contemporary bathroom fittings are pure and understated.

The chrome and pink gold finishes are ideally suited to this style.

## PERLE COLLECTION

Before opening his proper office at 30 year old, Pierre-Yves Rochon tested all the trends and styles, which allowed him to win the prestigious international hotels trade.

Since 1921, Lalique manufacture metamorphoses raw material into clear and matt crystal, an identity built by softness, femininity and nature.

By combining their expertise, Lalique, Pierre-Yves Rochon and THG Paris have created the Perle collection, a modern and refined jewel which will sublimate your bathroom.
